

Eze Kate Ahurika

Hello! I'm a passionate UI/UX designer with a deep commitment to creating intuitive, engaging, and user-centric digital experiences. With a solid background in both user interface (UI) design and user experience (UX) design, I have honed my skills to craft designs that not only look stunning but also provide seamless and enjoyable user interactions.

EXPERIENCE

UI/UX DESIGNER | RecreaX Community (THE WEAVE PROJECT)

JUNE 2024-till date

A mobile app for burnout relivers and managing stress .As a UI/UX designer, my primary role in this project was be to translate the research findings into actionable design solutions. Here are some key responsibilities such as :

1.Analyze research findings which included understanding user needs and identify patterns for burn out.

2. Develop user personas which included creating representative profiles based on the research finding and empathize with users: understand the user personas' goals, motivations, and challenges to design solutions that resonate with them.

3. Design user flows which included mapping the user journey :and optimize the experience to ensure that the user flows are intuitive, efficient, and minimize friction.

4. Create wireframes and prototypes such as sketch ing initial ideas by developing low-fidelity wireframes to visualize the basic structure and layout of the design. and creating high-fidelity prototypes to test the design concepts with users and gather feedback.

5. Conduct usability testing by observe users interacting with the prototypes to identify usability issues and areas for improvement. and gathering feedback

6.Designing a visually appealing and consistent interface that aligns with the brand and user preferences. and adhering to accessibility guidelines to make the design inclusive for users with disabilities.

7. Collaborate with team members by working with stakeholders which includes designers, product managers, developers, and other team members to ensure the design aligns with project goals. i offered my design expertise and insights to contribute to the overall project success

UI/UX DESIGNER | UNIVERSITY OF PORTHARCOURT TEACHING HOAPITAL (SSAUTHRAI COOPERATIVE)

August 2023 - October 2023

Designed the UI and did quality UX research for a payroll and records website that helps the cooperative track down its records of payments and contributions. I orchestrated field research with top strategy using research and qualitative data to guide design and development decisions.

Completed over 3 designs, working closely with engineers and model makers to refine products for optimal results.

Maintained client satisfaction through prototype testing and user feedback to modify and perfect product designs.

Developed sketches, detailed drawings, and blueprints using traditional mediums and computer-aided design equipment.

Modified designs to comply with customer requests, production limitations, and changes in industry trend

UI/UX DESIGNER | UNIVERSITY OF PORTHARCOURT (COMPUTER SCIENCE)

May 2023 - August 2023

In my role as a UI/UX designer at the company, I focus on crafting seamless and visually appealing digital experiences. I begin by conducting user research to understand their needs and behaviors. With these insights, I create wireframes and prototypes, ensuring a user-centric approach. Collaborating closely with cross-functional teams, including developers and product managers, I contribute to the entire design process, from ideation to implementation. Through iterative testing and refinement, I aim to enhance the usability and accessibility of our products, striving to strike a balance between aesthetics and functionality. My goal is to create intuitive interfaces that elevate the overall user experience and align with the company's design and brand standards.

Product Designer |Harvox Tech Hub

October 2022 - February 2023

As the Product Designer at the company i was assigned a project for a health tech company called DOKITA. I orchestrated field research with top strategy using research and qualitative data to guide design and development decisions., my role is multifaceted and revolves around shaping the entire product experience. I start by comprehensively understanding user needs

SKILLS

- Product design (Figma), Figjam
- Wire- Framing
- Proto-typing
- Goggle Docs
- Jira
- Trello
- Slack
- Notion
- Proper Presentation

EDUCATION

B.Sc in Computer Science

University of Portharcourt

2019- 2023

CERTIFICATION

- Product Design
- UX Research
- She Code Africa
- UI/ UX DESIGN
- HNG
- CALART
